Plastic Laminate:

There are several manufacturers of plastic laminate. We mainly use the four major manufacturers in our area. These four are Formica, Wilsonart, Pionite, and Nevamar. The picture below is a sample of a maple laminate. To view more colors and styles, please click on the links below.

Solid Surface:

An alternative to plastic laminate is solid surface. It is more durable than plastic laminate and can be used to create counter tops along with many unique and stylish furnishings. For a complete look at what solid surface options are available, please click on the links below.
